

HENLEY AIR

Helicopter Charter and Flight Training Centre

"Aviation is essentially not about flying, it's fundamentally about landing"

Welcome

HENLEY AIR is a family owned business specialising in Helicopter Charter and Flight Training. What started out in 1995 as a dream, has today grown into a major operation at our base at Rand Airport, Johannesburg, South Africa.

The early years saw us using a Bell JetRanger helicopter. Today we provide our clients with a variety of single and multi-engine aircraft to meet their diverse requirements.

From the time you check in, to the time you board your flight, the HENLEY AIR experience is unique and personal.

Come fly with us - we look forward to sharing in your adventure.

André Coetzee CEO and Chief Pilot

Business Profile

The HENLEY AIR business profile offers our clients and customers reliability of service from trained professionals in the South African aviation industry.

The following companies are designed to assist you in all your aviation endeavours:

HENLEY AIR Charter (Pty) Ltd

- helicopter air charter.
- SA: CAA Class II & III licenses.
- N569D & G576D.

HENLEY AIR Flight Training (Pty) Ltd

- helicopter ab-initio flight training.
- SA: CAA 0088.

Henley Global Aviation Training

- crew resource management.

- flight safety office management.

Charter

Our charter operations are ideally situated in Johannesburg, close to OR Tambo International Airport, the Johannesburg CBD, Sandton and the East Rand.

At HENLEY AIR we provide the following charter services:

- aerial photography & videography.
- cargo & goods transport.
- event promotion.
- personal, private & executive transfer.
- pleasure flips.
- surveillance & vehicle tracking.

If you have any special requirements, discuss them with us and we will make it happen.

Training

Training is undertaken in-house with industry qualified instructors on the world-renowned Robinson R22 helicopter. Groundschool forms an integral component of learning to become a helicopter pilot, and our Flight Training Centre offers you a most comprehensive and interactive training programme.

At HENLEY AIR we also facilitate the undertaking of Commercial License training and renewals, as well as a variety of ratings including: instructor, instrument, mountain, night, radio and sling ratings.

We also offer conversion-to-type certification on a variety of aircraft including: Agusta, Bell, Eurocopter, Hughes and Robinson types. Multi-engine conversions are available on request.

Flying Club

Sharing your flying experiences with other students, instructors and pilots is a great way to learn more about helicopter flying.

HENLEY AIR has an active Flying Club that regularly undertakes Mountain Weekends, Navigation Exercises, Skills Days and local Fly-Inn's.

Test yourself and your hovering skills by flying a bucket of water on a 15 meter rope through a series of gates, trying not to spill a drop of water in the process. Or try your luck the good old fashioned way by identifying land markings located from various waypoints plotted on a map. These are all just part of the Flying Club's regular activities.

Our dynamic website is always up to date with information, so log on to henleyair.co.za and see what's happening.
